City of Patterson HIGH EFFICIENCY TOILET (HET) REBATE APPLICATION

Program Goal: To encourage a permanent reduction in the amount of water used for indoor plumbing.

Background: Replacing a high water use toilet with a new HET of 1.28 gallons per flush (GPF) can save about 38 gallons of water each day. A HET uses 20% less water per flush than Ultra Low Flushing Toilets (ULFT) models. Efficiency measures such as replacing water guzzling toilets with the latest low-flush toilet technology helps ensure future water supply and helps maintain low water rates.

Rebate Amount	Limit per Household
\$100.00 for a new qualifying HET of 1.28 GPF or less.	As long as there are qualifying toilets, there is no limit to the number of rebates an applicant can obtain.

How to Participate:

- 1) If you have met the terms and conditions of the program, please call Public Works at (209) 895-8060 to schedule a pre-verification visit. The purpose of a pre-verification visit is to verify the flushing capacity of your toilet.
- 2) If the toilet(s) qualify, the applicant will be asked to submit an application and will have (60) days from the pre-verification visit to install the new toilets and schedule the post-verification visit. Rebate application must be submitted within 60 days of sales receipt and only original receipts will be accepted with the application. Applications can be found online at <http://www.ci.patterson.ca.us/420/Rebate-Programs> or picked up at City Hall.
- 3) If approved, please allow up to (30) days for the rebate check to arrive after your post-verification appointment.

Additional Terms and Conditions:

- The City of Patterson reserves the right to terminate this program at any time and for any reason.
- Program is only for city of Patterson water utility customers. Renters or tenants must provide written approval from the property owner or property manager.
- Program applies to HET toilets purchased after 07/01/16.
- New toilets must be rated as follows:
 - New HET toilets must be rated at 1.28 Gallons per Flush (GPF) or less and must include the Water Sense label.
 - Dual flush toilets may qualify for rebates.
- Toilets being replaced must exceed 1.6 GPF and be manufactured before 1994. If the existing toilet(s) are 1.6 GPF or less, they will not qualify for this rebate program.
- Toilet installation costs and new construction do not qualify for rebates.
- It is the applicant's responsibility to verify with a certified plumber that the High Efficiency Toilet chosen is appropriate for homes with an older plumbing system.
- Rebate amount cannot exceed the purchase price of the new toilet.
- Incomplete, incorrect, or unsigned applications will not be accepted.
- The city is not responsible for applications or receipts lost in the mail.
- Rebates are processed on a first-come, first-served basis.
- Funding for this program is limited; therefore, rebates may not be available until the next fiscal year or until renewed.
- Rebates may be considered taxable income.
- Program and rebate amounts are subject to change without notification.
