

Partnership Vision & Training Goals

The San Joaquin Valley Stormwater Quality Partnership (SJVSQWP) works together unified, efficiently, and effectively to coordinate Regional Training for stormwater pollution prevention!

Training Goals:

- Work together to comply with the new Stormwater MS4 Phase II Permit criteria in a cost-effective manner.
- Provide Stormwater Training for Managers, Engineers, Builders, Operations & Maintenance Staff, and other stakeholders.
- Get to know each Stormwater Representatives for the various partnering Agencies & form positive working relationships.
- Comply with Federal, State, and Local Requirements through outreach and education before penalties.

Greener Communities bring healthier living for people, animals, and plants!

Advance Registration & Payment No Later Than:

Tuesday, May 3, 2016

Low Impact Development contributes to improving water quality and resources...

“Remember Only Rain Down the Drain!”

The San Joaquin Valley Stormwater Quality Partnership (SJVSQWP) are Cities, Counties, and other MS4 Phase II agencies that meet the fourth Wednesday of the month to share information, coordinate cost-sharing, and schedule trainings to ensure compliance with the Stormwater Phase II MS4 Permit.

Training sponsored/coordinated by the following:

Welcome

Section E.7.b.2 (b): Year 3 Requirements

Learn what the common problems are during construction, implementing Best Management Practices (BMPs) and preventing enforcement actions, monetary fines, civil/criminal penalties and civil lawsuits.

Section E.10.b: Year 2 Follow-up Training

Why are they required, what triggers erosion sediment control plans and how to develop & implement ESCP's.

Section E.7.b.1 & E.9: Year 3 Training

How to develop, implement, and properly report stormwater illicit discharges.

Section E.7.b.2 (a), E.7.b.3, & E.11: Year 3 Training.

The training will provide Cities/Agencies information about general housekeeping and implementing BMPs for Operations & Maintenance.

Section E.12: Years 2-3 Training

Information regarding Post-Construction / Low Impact Design requirements, provide training on the manual that was developed/adopted at the local levels. Get to know your local agency requirements and contacts

Section E.12: Years 2-3 Training

Low Impact Development (LID) lesson learned and examples.

Section E.12: Years 2-3 Training

Provide brief presentations on Low Impact Design practices and benefits

7:45 AM— 8:15 AM

Check-in (No registrations after May 3rd)

8:15 AM— 8:30 AM

Welcome, Introductions, and Training Information

8:30 AM—9:30 AM

Richard Muhl, Central Valley Regional Water Quality Control Board

Problems at Construction Sites & Implementing Best Management Practices (BMPs) During Construction Activities

9:40 AM—10:15 AM

Bret Smith, Compliance First

Developing & Implementing Erosion and Sediment Control Plans (ESCPs)

10:25 AM—11:00 AM

Condor Earth Technologies

Illicit Discharge Detection, Elimination & Reporting Program

11:00 AM—11:35 AM

Stephanie Hiestand, City of Tracy

Pollutions Prevention & Good Housekeeping for Operations & Maintenance

OUT TO LUNCH

11:35 AM—12:50 PM

Lunch and On-Site Tour

1:00 PM—1:40 PM

Sandy Matthews, Larry Walker & Associates

Post Construction BMPs/Low Impact Development (LID) Standards Manual Training

1:50 PM—3:00 PM

Lisa Moretti, UC Davis &

Paul Schneider, Siegfried Engineering

LID Standards: Lessons Learned & Examples

3:00 PM—4:00 PM

Koosun Kim, City of Newman

Economic Benefits of LID Practices

4:00 PM

Training Ends

Training Location:

Robert J. Cabral

Agriculture Center

2101 E. Earhart Avenue

Stockton, CA 95206
